EDUCATION

High School Education

Liverpool College

2017 - 2019

Bachelor of Science in Computing

Infomatics College Pokhara

2021 - 2023

SKILLS

- Web Developer
- JS, TS, ReactJS, NextJS
- TailWind CSS
- UI/UX Design
- Relational Database
- Git/Version Control
- Game Developer (Unity & C#)
- Video Editor
- Motion Graphics

WORK EXPERIENCE

Spendy (Web App)

Sep 2023 - Dec 2023

- Utilized React-router and implemented protected routes
- Implemented CRUD for transactions using Firestore database
- Restricted localhost access in Firebase authentication and enforced Firestore rules allowing database write access only for logged-in users
- Integrated ChartJS to present data in a visually engaging manner
- Used Tailwind CSS and font awesome icons for visual clarity

Netflix Clone App (Web App)

Jun 2023 - July 2023

- Integrated Firebase authentication for user login and registration
- Component-based architecture and react state management (Context, useReducer)
- Used tailwind CSS for an appealing and responsive UI.

Extraction (Game Dev)

Sep 2022 - March 2023

- Build my Unity controllers from the ground up for much finer control and interaction.
- Leveraged Unity's physics components for realistic gun mechanics and environmental interactions.
- Designed my UI in figma and implemented it accordingly, made custom animations and gun models.
- Implemented C# events and delegates for efficient communication between game systems, optimizing performance and functionality.
- Utilized game theory principles to craft engaging and strategic level designs, enhancing the overall gameplay experience for players.
